We are so fortunate to live in Canada, a country that has flourished and prospered over the years. And our new positive Conservative message recognizes the pride we feel in Canada and its history. As Andrew Scheer, Leader of the Official Opposition, said, "It is indisputable that the world has been better off for the last 150 years because of Canada." We are strong and free, and the story of Canada offers so much for which we can show our gratitude. That's why Canada's Conservatives are unapologetic in our love for Canada and its history. Our positive alternative will make Canada as much the envy of the world for the next 150 years as we have been since our country was founded. That's what Canada's Conservatives believe in, and that's what we stand for.

Canada's Conservatives are excited to offer a principled alternative to the out-of-touch Liberal government.

We're focused on creating prosperity and opportunity for all Canadians.

You can count on us to stand up for:

- ♣ Balanced budgets
- ♣ Lower taxes
- ♣ Accountability

It's a vision that reflects the diverse needs of a diverse country.

And that's why we're eager to bring Canadians together around this positive new message.
